

## Lake Louise Trip, March 25-27

By Dion Brosius

Eight skiers met at the Lake Louise Hostel Friday night. We relaxed in the lounge up stairs and made plans for the next day. We met at the hill for 9am and went up the gondola. From there we broke into smaller groups to do our own thing. We all met for lunch and again caught the Gondola up. At the top, we met a new friend. A wolverine! She wasn't a threat though because she was stuffed! So, we took a picture with our newest honorary club member. We then parted ways again and broke into our groups. At the end of the day, we met up for beverages at the base. Even though conditions weren't spectacular, it was a great day for all.

We all went for supper at Peyto Bills at the hostel that evening. Most of the group all loved the sticky toffee pudding! We then decided to go snow shoeing at Mirror Lake the following day. You start the snowshoe at the Lake Louise Chateau. As we suspected, we didn't need our snowshoes as it was all packed down. Some of us were troopers and carried them on our back anyway. At Mirror Lake we saw some beautiful jays and enjoyed a light lunch. We then walked back down to the parking lot. The theme for the weekend was all great ski runs or disasters, depending on who you ask, start with Amanda saying "Let's do this run." Thank you Amanda for putting on this great trip.
